EXPERIENCE

Anblicks | SDE-2

June 2024 – Present

- Developed enterprise-grade Dealer Management System modules using Angular, Ext JS, React, and TypeScript for automobile clients.
- Built reusable frontend architectures, optimized API-driven workflows, and improved application scalability across multiple business modules.
- Led modernization of legacy AngularJS systems and resolved production-critical issues through debugging and performance optimization.
- Collaborated with cross-functional teams in agile environments to deliver scalable frontend solutions and business features.

Weboccult Technologies | Junior Software Developer

Aug 2022 – May 2024

- Developed hospitality management platform features using Angular, TypeScript, RxJS, and REST API integrations.
- Implemented authentication workflows, modular architecture, and real-time communication features using Socket.IO.
- Enhanced application performance through lazy loading, reusable component development, and optimized frontend state handling.

PROJECTS

Advent – Dealer Management System | Angular, RxJS, Ext JS, TypeScript

- Engineered enterprise-grade dealership workflows for vehicle inventory, financing, pricing, and customer lifecycle management systems.
- Built dynamic data-intensive interfaces with advanced filtering, server-side pagination, reusable grids, and reactive form handling.
- Optimized frontend performance using lazy loading, modular architecture, API request optimization, and efficient RxJS state management.
- Developed reusable business components and configurable UI frameworks that accelerated feature delivery across multiple modules.

Eatcard – Hospitality Management Platform | React.js, Next.js, TypeScript, Socket.IO

- Developed real-time hospitality management modules including POS workflows, order management, reservations, and kitchen coordination systems.
- Implemented live operational updates using Socket.IO for synchronized order tracking and multi-device communication workflows.
- Built scalable React component architecture with reusable hooks, optimized rendering patterns, and responsive UI systems.
- Enhanced application performance using Next.js SSR/SSG strategies, code splitting, and efficient client-side state management techniques.

TECHNICAL SKILLS

Languages & Frameworks: TypeScript, JavaScript, Python, Angular, React.js, Next.js, Ext JS, Node.js

Frontend: RxJS, Angular Material, Tailwind CSS, Bootstrap, Material UI, Shadcn UI, jQuery

Backend & Tools: REST APIs, Socket.IO, MongoDB, SQL, Git, Docker, CI/CD, Firebase, Supabase, Postman

EDUCATION

International Institute of Information Technology - Bangalore

2025-27

Postgraduate - Data Science and AI

Gujarat Technological University

2019 – 2023

B.Tech in Computer Engineering

CGPA: 8.54/10
